Professional Summary

Innovative Artificial Intelligence & Data Science undergraduate with a strong foundation in building scalable, intelligent software systems. Proven expertise in Full Stack Development (React.js, Spring Boot) and cloud infrastructure (AWS, Azure). Adept at bridging the gap between sophisticated backend architecture and intuitive user interfaces. Passionate about leveraging robust algorithms and data technologies to solve complex engineering challenges.

Education

B.Tech - Artificial Intelligence and Data Science

2023 - 2027

Sri Krishna College of Technology, Coimbatore, Tamil Nadu

CGPA: 8.2 / 10

Higher Secondary Certification (HSC) (State Board)

2023

Government Model School, RS Puram, Coimbatore, Tamil Nadu

Percentage: 83%

Technical Skills

Languages: Java, Python, C++, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Spring Boot, Spring Security, Flask, REST APIs

Databases: MySQL, MongoDB, SQLite, Firebase (Realtime & Firestore)

Cloud & Tools: AWS, Azure, Docker, Git, GitHub, Linux, Postman

Core Concepts: Data Structures & Algorithms, Design & Analysis of Algorithms

Projects

Melo | Mobile Music App

November 2025

- Constructed a music application leveraging Puppeteer for automated data scraping and Azure for scalable cloud deployment.
- Tech Stack:** React Native, Node.js, Puppeteer, Azure, Firebase

Phi-3 Mini Finetune | LLM Character Customization

October 2025

- Fine-tuned Microsoft's Phi-3 Mini model via Unsloth to synthesize a high-fidelity anime persona with optimized inference performance.
- Tech Stack:** Python, Unsloth, PyTorch, LLM Fine-tuning, Hugging Face

AgriGPT | GenAI Agriculture Assistant

September 2025

- Architected a domain-specific AI consultant PWA for farmers to deliver real-time crop diagnosis and advisory services.
- Tech Stack:** React.js (vite), Python, Firebase (Auth, Firestore), PWA

Comuno | Student Social Network

May 2025

- Engineered a dedicated student community platform featuring real-time messaging, dynamic feed interactions, and commenting capabilities.
- Tech Stack:** React.js (vite), Firebase, Cloudinary, PWA (Progressive Web App)

PlateStream | Interactive Recipe Repository

April 2025

- Developed a comprehensive culinary platform enabling users to browse recipes, engage via comments, and manage content through a custom admin dashboard.
- **Tech Stack:** Spring Boot, React.js, MySQL, REST APIs

Internships

Full Stack Developer Intern | M8 IT Solutions Pvt Ltd

April 2025 – May 2025

Coimbatore, Tamil Nadu

- Collaborated with the development team to build and optimize scalable web applications using React.js and Spring Boot.
- Developed and integrated RESTful APIs, ensuring seamless data communication between the user interface and backend databases.
- Assisted in debugging and resolving UI/UX issues, improving the overall application performance and user experience.

Data Visualization Virtual Intern | Tata Group

August 2025

Forage | Remote

- Framed business scenarios to identify key performance indicators (KPIs) and strategic requirements for executive stakeholders.
- Selected and created effective data visualizations (dashboards/charts) to uncover sales trends and operational inefficiencies.
- Communicated actionable insights and analysis, translating raw data into clear narratives for business decision-making.

Certifications

- Microsoft Certified: Azure Fundamentals (AZ-900) | **Microsoft**
- Programming with Generative AI | **NPTEL**
- React Web Developer Certification | **Infosys Springboard**
- Data Mining | **NPTEL**
- Python Essentials | **Cisco Networking Academy**
- Data Science Math Skills | **Coursera**
- Fundamentals of Artificial Intelligence | **NPTEL**
